QUIET
The elastic surface of C-QR floors dampens footsteps and vibrations - for pleasant room acoustics.

EASY TO CARE FOR
For reliable protection: The surface is completely sealed with a high-quality acrylic coating. Stains and dirt can be easily removed by sweeping, vacuuming or damp mopping.

WARM
C-QR floors feel cozy and soft - ideal for walking barefoot.
HIGH DURABILITY
C-QR floors are particularly hard-wearing thanks to their special wear layer.

SUITABLE FOR UNDERFLOOR HEATING SYSTEMS
Due to their good thermal conductivity, edge floors are ideally suited for installation on underfloor heating systems.

QUICK AND EASY INSTALLATION

C-QR
softec

C-QR softec is an innovative **hybrid design floor** that is equipped with a special compact carrier board that provides exceptional stability. This makes the flooring particularly durable and resistant to loads.

The flooring offers a variety of authentic and stylish wood and stone decors with a Synchronous embossing that gives the flooring a realistic look and texture. It is able to meet a variety of design requirements and create an aesthetically pleasing atmosphere.

With a wear layer of 0.5 mm, **C-QR softec** flooring meets high demands and is suitable for high-traffic areas where high durability is required. At the same time, the 1.5 mm thick vinyl overlay provides comfort that is easy on the joints and a surface that is warm to the feet, which is particularly pleasant when walking.

The floor covering is also known for its noise reduction. Thanks to the 1 mm thick impact sound insulation made of cork, walking noises are effectively dampened, creating a quiet and low-noise environment.
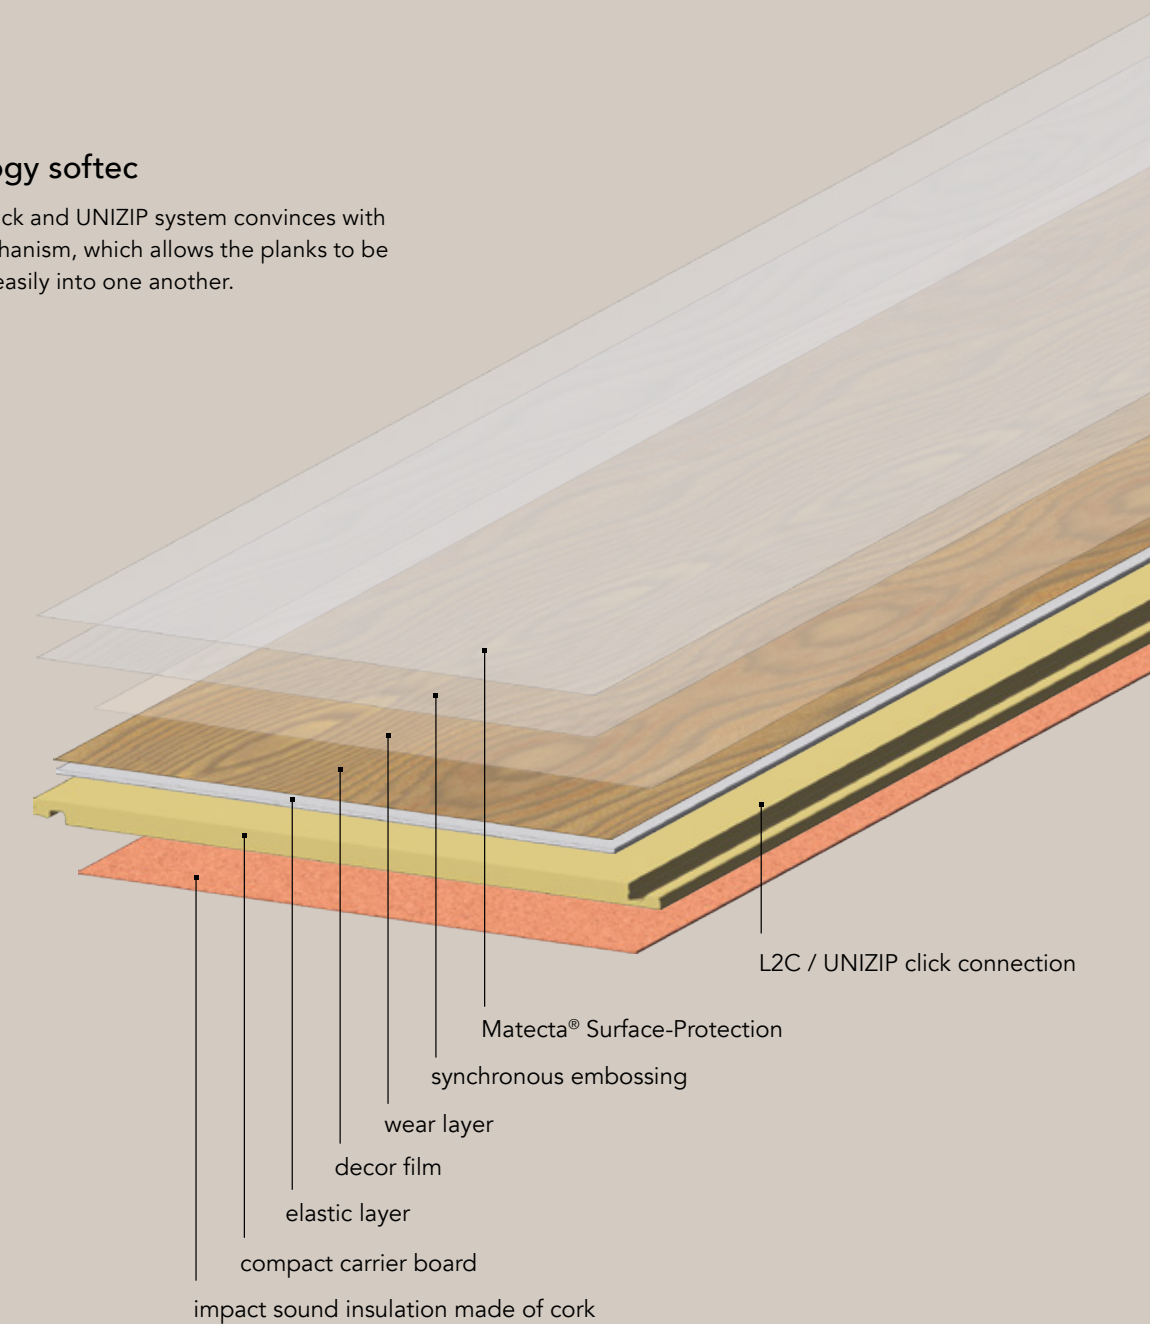

The installation of **C-QR softec** flooring is simple and quick thanks to the L2C click and UNIZIP connection. This allows for a hassle-free installation without the need for additional adhesive. This means that the floor covering can also be installed without professional help.

Overall, the **C-QR softec** flooring offers a combination of stability, aesthetics, durability, comfort and ease of installation. It is an excellent choice for demanding environments and contributes to a high-quality and pleasant flooring solution.
